Subject Index

Volume 14 July–December 1989

A

Abstracts
Abstracts of the Council for High Blood Pressure Research 43rd Annual Fall Conference and Scientific Sessions, 329

Acetylcholine
Age and Hypertension Promote Endothelium-Dependent Contractions to Acetylcholine in the Aorta of the Rat, 542
Renal Vasomotion in Essential Hypertension: Influence of Vasodilators, 9

Adolescents
Race and Gender Influence Ambulatory Blood Pressure Patterns of Adolescents, 598

Adrenal gland
Effect of Plasma Sodium on Aldosterone Secretion During Angiotensin II Stimulation in Normal Humans, 164
Molecular Cloning of Chromogranin A From Rat Pheochromocytoma Cells, 435

Adrenergic receptors
Neuropeptide Y and Galanin in Norepinephrine Release in Hypothalamic Slices, 81
Renal Nerve Contribution to NaCl-Exacerbated Hypertension in Spontaneously Hypertensive Rats, 184

Adrenocorticotropic hormone
Altered Pituitary Hormone Response to Naloxone in Hypertension Development, 636

Age
Age and Hypertension Promote Endothelium-Dependent Contractions to Acetylcholine in the Aorta of the Rat, 542
Antihypertensive Effect of Vasopressin Withdrawal in Young and Adult Spontaneously Hypertensive Rats, 66
Arterial Dilation and Reduced Wave Reflection: Benefit of Dilevalol in Hypertension, 14

Alcohol
INTERSALT Study Findings: Public Health and Medical Care Implications, 570

Aldosterone
Angiotensin-Induced Hypertension in the Rat: Sympathetic Nerve Activity and Prostaglandins, 396
Effect of Plasma Sodium on Aldosterone Secretion During Angiotensin II Stimulation in Normal Humans, 164

Aldosteronism
Low Dose Atrial Natriuretic Factor in Primary Aldosteronism: Renal, Hemodynamic, and Vascular Effects, 156

γ-Aminobutyric acid
Hypothalamic GABA and Sympathetic Regulation in Spontaneously Hypertensive Rats, 623

Ambulatory blood pressure
Race and Gender Influence Ambulatory Blood Pressure Patterns of Adolescents, 598

Angiography
Prospective Analysis of Strategies for Diagnosing Renovascular Hypertension, 247

Angiotensin
Angiotensin-Induced Hypertension in the Rat: Sympathetic Nerve Activity and Prostaglandins, 396
Assays to Measure Nanomolar Levels of the Renin Inhibitor CGP 38 560 in Plasma, 379
Brain Angiotensin II and Baroreceptor Reflex Function in Spontaneously Hypertensive Rats, 274
Characteristics of Pressor Response to Endothelin in Spontaneously Hypertensive and Wistar-Kyoto Rats, 427
Effect of a Monoclonal Antibody to Angiotensin II on Hemodynamic Responses to Noradrenergic Stimulation in Pithed Rats, 488
Effect of Plasma Sodium on Aldosterone Secretion During Angiotensin II Stimulation in Normal Humans, 164
Effects of Renin Inhibition in the Conscious Primate *Macaca fascicularis*, 480
Enhanced Responsiveness to Angiotensin II in Vascular Smooth Muscle Cells From Spontaneously Hypertensive Rats Is Not Associated With Alterations in Protein Kinase C, 293
Monoclonal Antibodies and Nonpeptide Antagonists to Angiotensin II: Potential Implications, 498
Renal Vasomotion in Essential Hypertension: Influence of Vasodilators, 9

Angiotensin antagonists
Monoclonal Antibodies and Nonpeptide Antagonists to Angiotensin II: Potential Implications, 498

Antihypertensive agents
A Proposal for Multinational Development of New Drugs, 458
Preface: Commentary from the Chairman, Council for High Blood Pressure Research, 457
Smoking Accounts for Adverse Effect of Antihypertensive Medications on Plasma Lipids: A Population-Based Study, 210

Anti-inflammatory drugs
Relation Between Renin Release and Blood Pressure Response to Nonsteroidal Anti-inflammatory Drugs in Hypertension, 469

Aorta
Aortic Hypertrophy and "Waterlogging" in the Development of Coarctation Hypertension, 316
Influence of Hypertension on Aortic Atherosclerosis in the Watanabe Rabbit, 203
Long-term Inhibition of Angiotensin Converting Enzyme Suppresses Calcium Channel Agonist–Induced Contraction of Aorta in Hypertensive Rats, 652

Arginine vasopressin
Effect of Plasma Sodium on Aldosterone Secretion During Angiotensin II Stimulation in Normal Humans, 164

Arteries
Arterial Dilation and Reduced Wave Reflection: Benefit of Dilevalol in Hypertension, 14
Isolation and Characterization of Single Vascular Smooth Muscle Cells From Spontaneously Hypertensive Rats, 137

Aspirin
Aspirin Lowers Blood Pressure in Patients With Renovascular Hypertension, 461
Relation Between Renin Release and Blood Pressure Response to Nonsteroidal Anti-inflammatory Drugs in Hypertension, 469

Atherosclerosis
Influence of Hypertension on Aortic Atherosclerosis in the Watanabe Rabbit, 203

Atrial natriuretic factor
Atrial Natriuretic Factor in Hypertension: Bioactivity at Normal Plasma Levels, 261
Atrial Natriuretic Factor in NaCl-Sensitive and NaCl-Resistant Spontaneously Hypertensive Rats, 404
Atrial Natriuretic Factor Modulates Proximal Glomerulotubular Balance in Anesthetized Rats, 666
Calcium Infusion Increases Plasma Atrial Natriuretic Factor in Spontaneously Hypertensive Rats, 98
Enhanced Release of Atrial Natriuretic Factor by Endothelin in Atria From Hypertensive Rats, 111
Hemodynamic and Renal Responses to Physiological Levels of Atrial Natriuretic Factor in Conscious Dogs, 104

Low Dose Atrial Natriuretic Factor in Primary Aldosteronism: Renal, Hemodynamic, and Vascular Effects, 156
Potentiation of Renal Effects of Atrial Natriuretic Factor-(99–126) by SQ 29,072, 87

B

Baroreceptor reflex
Angiotensin-Induced Hypertension in the Rat: Sympathetic Nerve Activity and Prostaglandins, 396
Antihypertensive Effect of Vasopressin Withdrawal in Young and Adult Spontaneously Hypertensive Rats, 66
Brain Angiotensin II and Baroreceptor Reflex Function in Spontaneously Hypertensive Rats, 274
Impaired Reflex Response to Volume Expansion in NaCl-Sensitive Spontaneously Hypertensive Rats, 518
Impairment of Baroreceptor Reflex Control of Heart Rate But Not Sympathetic Efferent Discharge By Central Neuroadministration of Ethanol, 282
Reversal by Ethanol of the Hypotensive Effect of Clonidine in Conscious Spontaneously Hypertensive Rats, 531
Baroreceptors
Lability of Arterial Pressure After Baroreceptor Denervation Is Not Pressure Dependent, 501
β-Endorphin
Altered Pituitary Hormone Response to Naloxone in Hypertension Development, 636
β-Receptor
β-Receptor Properties in Soleus Muscles From Spontaneously Hypertensive Rats, 54
Bladder distension
Sympathetic Activity and Blood Pressure Increases With Bladder Distension in Humans, 511
Blood flow
Role of Kinin in Regulation of Rat Submandibular Gland Blood Flow, 73
Blood glucose
Smoking Accounts for Adverse Effect of Antihypertensive Medications on Plasma Lipids: A Population-Based Study, 210
Blood pressure
Altered Pituitary Hormone Response to Naloxone in Hypertension Development, 636
Assays to Measure Nanomolar Levels of the Renin Inhibitor CGP 38 560 in Plasma, 379
Atrial Natriuretic Factor in NaCl-Sensitive and NaCl-Resistant Spontaneously Hypertensive Rats, 404
Blood Pressure in Four Remote Populations in the INTERSALT Study, 238
Blood Pressure in Spontaneously Hypertensive Rats Fed Butterfat, Corn Oil, or Fish Oil, 674
Body Fluid Volume and Angiotensin II in Maintenance of One-Kidney, One Clip Hypertension, 269
Characteristics of Pressor Response to Endothelin in Spontaneously Hypertensive and Wistar-Kyoto Rats, 427
Effect of Decaffeinated Versus Regular Coffee on Blood Pressure: A 12-Week, Double-Blind Trial, 563
Effects of Renin Inhibition in the Conscious Primate *Macaca fascicularis*, 480
Elevated Sympathetic Nerve Activity in Borderline Hypertensive Humans: Evidence From Direct Intraneural Recordings, 177
Ethnic Differences in Blood Pressure, Pulse Rate, and Related Characteristics in Young Adults: The CARDIA Study, 218
Impairment of Baroreceptor Reflex Control of Heart Rate But Not Sympathetic Efferent Discharge By Central Neuroadministration of Ethanol, 282
INTERSALT Study Findings: Public Health and Medical Care Implications, 570
Postexercise Hypotension and Sympathoinhibition in Borderline Hypertensive Men, 28
Relative Contributions of Dietary Na^+ and Cl^- to Salt-Sensitive Hypertension, 579
Reversal by Ethanol of the Hypotensive Effect of Clonidine in Conscious Spontaneously Hypertensive Rats, 531
Role of Angiotensin Converting Enzyme and Other Peptidases in In Vivo Metabolism of Kinins, 322
Role of Endogenous Brain Kinins in the Cardiovascular Response To Intracerebroventricular Melittin, 629
Seasonal Influences on Blood Pressure in High Normal to Mild Hypertensive Range, 22
Sympathetic Activity and Blood Pressure Increases With Bladder Distension in Humans, 511
Thermosensitivity, A Possible New Locus Involved In Genetic Hypertension, 121
Characteristics of Pressor Response to Endothelin in Spontaneously Hypertensive and Wistar-Kyoto Rats, 427
Body mass index
INTERSALT Study Findings: Public Health and Medical Care Implications, 570
Borderline hypertension
Elevated Sympathetic Nerve Activity in Borderline Hypertensive Humans: Evidence From Direct Intraneural Recordings, 177
Postexercise Hypotension and Sympathoinhibition in Borderline Hypertensive Men, 28
Borderline hypertensive rats
Lesions of the Anteroventral Third Ventricle Prevent Salt-Induced Hypertension in the Borderline Hypertensive Rat, 619
Bradykinin
Role of Kinin in Regulation of Rat Submandibular Gland Blood Flow, 73

C

Caffeine
Caffeine May Potentiate Adrenocortical Stress Responses in Hypertension-Prone Men, 170
Effect of Decaffeinated Versus Regular Coffee on Blood Pressure: A 12-Week, Double-Blind Trial, 563
Calcium
Blood Pressure in Spontaneously Hypertensive Rats Fed Butterfat, Corn Oil, or Fish Oil, 674
Calcium Binding Capacity of Erythrocyte Membrane in Human Hypertension, 152
Calcium Infusion Increases Plasma Atrial Natriuretic Factor in Spontaneously Hypertensive Rats, 98
Intracellular Vascular Muscle Ca^{2+} Modulation in Genetic Hypertension, 145
Modulation of Aortic Smooth Muscle Cell Membrane Potential by Extracellular Calcium, 549
Calcium agonists
Long-term Inhibition of Angiotensin Converting Enzyme Suppresses Calcium Channel Agonist–Induced Contraction of Aorta in Hypertensive Rats, 652
Calcium channel blocker
Renal Vasomotion in Essential Hypertension: Influence of Vasodilators, 9
Calcium currents
Calcium Channel Alterations in Genetic Hypertension, 453
Captopril
Brain Angiotensin II and Baroreceptor Reflex Function in Spontaneously Hypertensive Rats, 274
Renal Vasomotion in Essential Hypertension: Influence of Vasodilators, 9
Cardiac function
Arterial Dilation and Reduced Wave Reflection: Benefit of Dilevalol in Hypertension, 14
Cardiac hypertrophy
Ventricular Myosin and Creatine-Kinase Isoenzymes in Hypertensive Rats Treated With Captopril, 556
Cardiovascular disease
Controlling Hypertensive Disease and Its Complications Among Black Americans: Current Challenges, 235
Impact of Race on Treatment Response and Cardiovascular Disease Among Hypertensives, 227
Catecholamines
Angiotensin-Induced Hypertension in the Rat: Sympathetic Nerve Activity and Prostaglandins, 396

Cell depolarization
Modulation of Aortic Smooth Muscle Cell Membrane Potential by Extracellular Calcium, 549
Cellular hypertrophy
Arginine Vasopressin–Induced Hypertrophy of Cultured Rat Aortic Smooth Muscle Cells, 413
Cerebral blood flow
Effects of Cilazapril on the Cerebral Circulation in Spontaneously Hypertensive Rats, 645
Cholesterol
Smoking Accounts for Adverse Effect of Antihypertensive Medications on Plasma Lipids: A Population-Based Study, 210
Chromogranins
Molecular Cloning of Chromogranin A From Rat Pheochromocytoma Cells, 435
Cigarette smoking
Etiologic Factors in Renovascular Fibromuscular Dysplasia: A Case-Control Study, 472
Cilazapril
Effects of Cilazapril on the Cerebral Circulation in Spontaneously Hypertensive Rats, 645
Clinical trials
A Proposal for Multinational Development of New Drugs, 458
Aortic Compliance in Human Hypertension, 129
Arterial Dilation and Reduced Wave Reflection: Benefit of Dilevalol in Hypertension, 14
Effect of Decaffeinated Versus Regular Coffee on Blood Pressure: A 12-Week, Double-Blind Trial, 563
Impact of Race on Treatment Response and Cardiovascular Disease Among Hypertensives, 227
Preface: Commentary from the Chairman, Council for High Blood Pressure Research, 457
Sympathetic Activity and Blood Pressure Increases With Bladder Distension in Humans, 511
Clonidine
Reversal by Ethanol of the Hypotensive Effect of Clonidine in Conscious Spontaneously Hypertensive Rats, 531
Coarctation hypertension
Aortic Hypertrophy and "Waterlogging" in the Development of Coarctation Hypertension, 316
Cold pressor test
Cardiovascular Reactivity to the Cold Pressor Test as a Predictor of Hypertension, 524
Commentary from the Chairman, Council for High Blood Pressure Research
A Proposal for Multinational Development of New Drugs, 458
Preface: Commentary from the Chairman, Council for High Blood Pressure Research, 457
Compliance
Aortic Compliance in Human Hypertension, 129
Converting enzyme
Atrial Natriuretic Factor Modulates Proximal Glomerulotubular Balance in Anesthetized Rats, 666
Role of Angiotensin Converting Enzyme and Other Peptidases in In Vivo Metabolism of Kinins, 322
Converting enzyme inhibition
Effect of Converting Enzyme Inhibition on Renin Synthesis and Secretion in Mice, 385
Effects of Cilazapril on the Cerebral Circulation in Spontaneously Hypertensive Rats, 645
Long-term Inhibition of Angiotensin Converting Enzyme Suppresses Calcium Channel Agonist–Induced Contraction of Aorta in Hypertensive Rats, 652
Role of Kinin in Regulation of Rat Submandibular Gland Blood Flow, 73
Ventricular Myosin and Creatine-Kinase Isoenzymes in Hypertensive Rats Treated With Captopril, 556
Creatine kinase
Ventricular Myosin and Creatine-Kinase Isoenzymes in Hypertensive Rats Treated With Captopril, 556
Cyclic AMP
β-Receptor Properties in Soleus Muscles From Spontaneously Hypertensive Rats, 54
Cyclic GMP
Potentiation of Renal Effects of Atrial Natriuretic Factor-(99–126) by SQ 29,072, 87

D

Dahl rats
Relative Contributions of Dietary Na^+ and Cl^- to Salt-Sensitive Hypertension, 579
Deoxycorticosterone
Relative Contributions of Dietary Na^+ and Cl^- to Salt-Sensitive Hypertension, 579
Diet
Blood Pressure in Spontaneously Hypertensive Rats Fed Butterfat, Corn Oil, or Fish Oil, 674
Caffeine May Potentiate Adrenocortical Stress Responses in Hypertension-Prone Men, 170
Digoxin antibody
Transmission of Hypertension in Rats by Cross Circulation, 61
Dihydropyridine
Intracellular Vascular Muscle Ca^{2+} Modulation in Genetic Hypertension, 145
Dilevalol
Arterial Dilation and Reduced Wave Reflection: Benefit of Dilevalol in Hypertension, 14
Diltiazem
Renal Vasomotion in Essential Hypertension: Influence of Vasodilators, 9
Diuresis
Potentiation of Renal Effects of Atrial Natriuretic Factor-(99–126) by SQ 29,072, 87
Dog studies
Hemodynamic and Renal Responses to Physiological Levels of Atrial Natriuretic Factor in Conscious Dogs, 104

E

Editorial Comments
